

Simplicity VFax facilitates the sending and receiving of fax messages. Whether by PC, tablet or mobile device, a fax can be sent via the registered user's email box or through the Simplicity Client Portal.

Many industries, particularly legal, healthcare, and government, still rely heavily on faxing for document sharing.

With the retirement of traditional analog lines in the near future, the need for an electronic faxing solution is imminent. Simplicity VFax provides a secure, convenient, reliable, and easy to use option.
